

Eaton Career Opportunity

ES EMEA Power Distribution (PDD) has an opening for a:

Coordinator Environment, Health and Safety (EHS)

Location: Schrems, Austria

Send your application to: <https://jobs.eaton.com/jobs/096982>

Do you want to work for a global player, where we care about ethics, inclusion and diversity and our people?

Join Eaton and help us provide energy-efficient solutions that have a real impact on the environment.

This position provides Environmental and Health and Safety coordination to the Schrems site. The EHS coordinator identifies potential safety hazards in operations and documents and reports the findings to supervisors. The EHS coordinator participates and drives the investigation of incidents, near misses and property damage incidents and ensures the follow-up is done to minimize future exposure. Conduct routine safety observations to ensure compliance with regulatory agencies, company environmental, health, and safety policies, procedures and practices.

An EHS coordinator examines the operations of a company as a whole and determine if they are environmentally friendly. And the EHS coordinator participates in manufacturing meetings and Management of change processes to discuss workplace safety and regulatory concerns and opportunities.

Essential Functions:

- Identification of hazards and risks (risk assessments)
- Inspections of workplaces (office/floor)
- Support establishing EHS trainings
- Support organization of audits, which includes audit preparation, conducting and presentation of programmes and finally defining action plans based on audit results and drive the closing of actions.
- Report and investigation of incidents, trending of incidents (accidents, First aid cases, cluster of Near misses and observations) and define actions
- Consultation of department leads in all EHS relevant fields
- Evaluation of plant layout based on EHS aspects
- Regularly inform employees about actual EHS topics

- Support the development and deployment of EHS management systems (ISO14001/OSHAS 18001/ISO 50001)
- Monitors and analyse EHS metrics and establish action plans to close gaps
- Thrives EHS programmes, cooperates and supports EHS Champions

Qualifications:

- Experience in a similar EHS role and industrial environment.
- Understanding and ability of risk identification and risk mitigation
- Problem solving knowledge and experience
- Experience in manufacturing area
- Fluent in written and oral German and English
- Knows how to work effectively with customers, co-workers, and other company personnel
- Understands and practices the need for effective communications
- Capability to set priorities and respect deadline
- Continually curious about facilitating existing processes
- Passion for using and learning
- Focus on engaging stakeholders for EHS topics
- A mind for analyze progress and results

Desired:

- Safety Expert Certification or willing to do parallel to this role
- Electrical or mechanical basic education

What Eaton offers:

- Cross-cultural working environment
- Flexible work time
- Varied and exciting challenges
- Inclusion & Diversity - Openness to diversity widens our access to the best talent. Inclusion allows us to engage that talent fully
- Great promotional opportunities – We encourage internal promotion, whenever possible
- Learning & Development - We invest in our employees for the long term – not just with salary and benefits, but with ongoing learning and development opportunities

About Eaton:

We are committed to ensuring equal employment opportunities for job applicants and employees. Our recruitment processes use balanced selection criteria and avoid unlawful discrimination against applicants on the basis of their age, colour, disability, marital status, national origin, gender, gender identity, genetic information, race or racial origin, religion, sexual orientation or any other status protected or required by law.

We make what matters work. Everywhere you look—from the technology and machinery that surrounds us, to the critical services and infrastructure that we depend on every day—you'll find one thing in common. It all

relies on power. That's why Eaton is dedicated to improving people's lives and the environment with power management technologies that are more reliable, efficient, safe and sustainable. Because this is what matters.

We are confident we can deliver on this promise because of the attributes that our employees embody. We're ethical, passionate, accountable, efficient, transparent and we're committed to learning. These values enable us to tackle some of the toughest challenges on the planet, never losing sight of what matters.
